Providing Essential Support for a Vibrant Library

The diverse range of services provided by the Lincoln Public Library is made possible through the generous financial support from FOLL, the countless hours contributed by volunteers, and the unwavering dedication of our library staff. FOLL's contributions are particularly noteworthy given that the City of Lincoln's per capita spending for the library is significantly less than the statewide median. With growing demands on the City's resources and Sierra College's withdrawal from the joint-use agreement, the library faces substantial challenges in securing adequate funds in the future. Thank you for supporting our library with your memberships, donations, grant awards and book and media purchases.

Library users accessed 14,900 books, audiobooks, videos & music from Library's digital resources supported by FOLL.

REVENUE \$113,026
